Retail Analytics

Our 17 year history assures best practice in privacy, security and the ethical use of data

We all have a responsibility to use data for good

Privacy

- We have built our business based on privacy by design principles for the past 17 years
- Quantum has strict protocols around the receipt and storage of personal information
- All information is de-identified using an irreversible tokenisation process with no ability to re-identify individuals.

Security

- We are ISO27001 certified - internationally recognised for our ability to uphold best practice standards across information security
- We use 'bank grade' security to store and process our data
- Comply with 200+ security requirements from NAB, Woolworths and other data partners
- All partner data is held in separate restricted environments
- All access to partner data is limited to essential staff only
- Security environment and processes regularly audited by our data partners.

Ethical use of data

Applies to all facets of our work, from the initiatives we take on, the information we use and how our solutions impact individuals, organisations and society.

Quantum believes in using data for progress, with great care and responsibility. As such please respect the commercial in confidence nature of this document.

Executive summary

01

Task 1

Key Findings:

Young Singles/Couples are the **primary contributors** to chip sales

Premium customers show **higher spend per transaction**

Mainstream segment drives **majority of purchase volume**

Insight:

Customer lifestyle and affluence significantly influence purchasing behavior

02

Task 2

Key Findings:

Store 88 showed **strong sales uplift** during trial period

Store 77 **underperformed** compared to control

Store 86 showed **inconsistent results**

Insight:

Trial layout effectiveness varies by store → selective rollout recommended

Agenda

- Category Overview
- Customer Purchasing Behaviour Analysis
- Trial Store Performance Evaluation
- Key Insights and Recommendations

01

Category : Chips

**Focus: Customer behavior and
purchase patterns**

Overview

Category Overview

- The chips category is primarily driven by **Young Singles/Couples**
- The **Mainstream segment** contributes the highest transaction volume
- Premium customers** generate higher revenue per transaction

Young Singles/Couples are the most valuable segment driving chip sales

Impact of Affluence on Purchasing Behavior

Premium customers

- Spend more per transaction
- Prefer higher-priced products

Mainstream customers

- Contribute the highest number of purchases
- Drive overall category volume

Budget customers

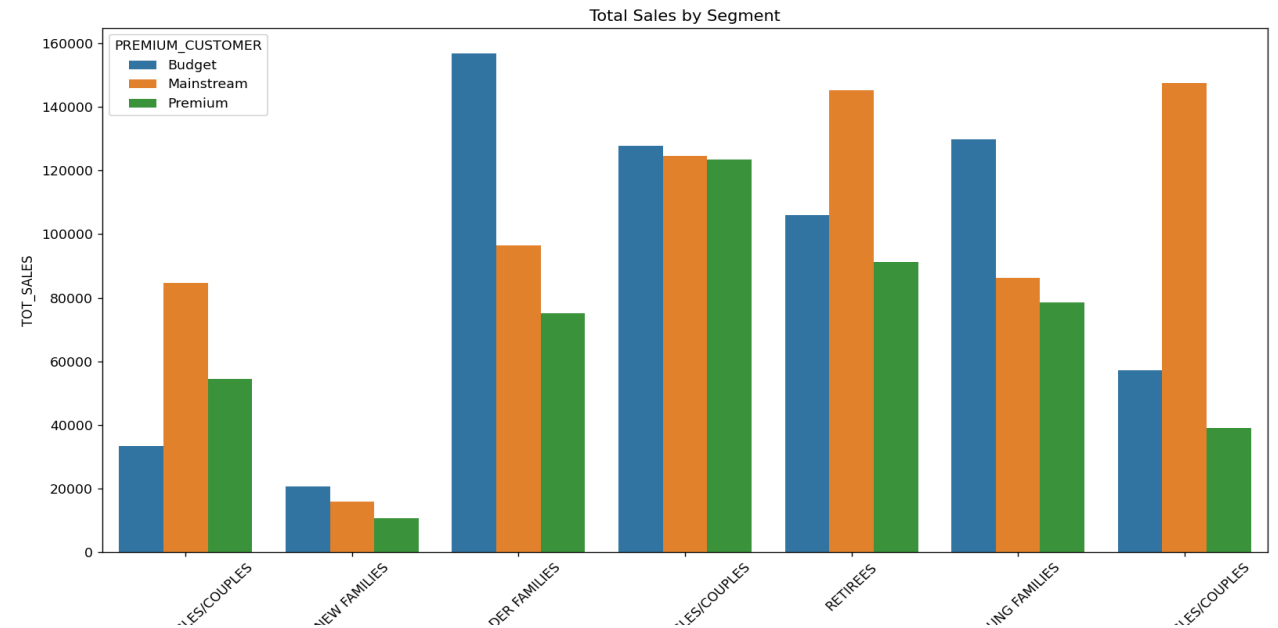

- Purchase more frequently
- Focus on lower-priced products

Affluence level directly influences both spending patterns and product choice in the chips category

Customer Distribution by Life Stage and Affluence

Customer Segment Distribution

- Highest sales contribution from **Mainstream Young Singles/Couples**
- **Budget Older Families** also contribute significantly to total sales
- Premium segment contributes less in volume but higher in value

Revenue is driven by a combination of high-volume (families) and high-value (young singles) customer segments

02

Trial store performance

Trial Overview

- Trial conducted in stores **77, 86, and 88**
- Performance compared against **similar control stores**
- Control stores selected based on **pre-trial sales similarity**

Methodology

- Control stores selected using **historical sales trends**
- Ensures fair comparison by matching similar store behavior
- Performance evaluated during **trial period (Feb–Apr 2019)**

Any difference in performance is attributed to the trial layout change

Store 77 Performance

- Sales were consistently **lower than control store**
- No positive uplift observed during trial period

Store 86 Performance

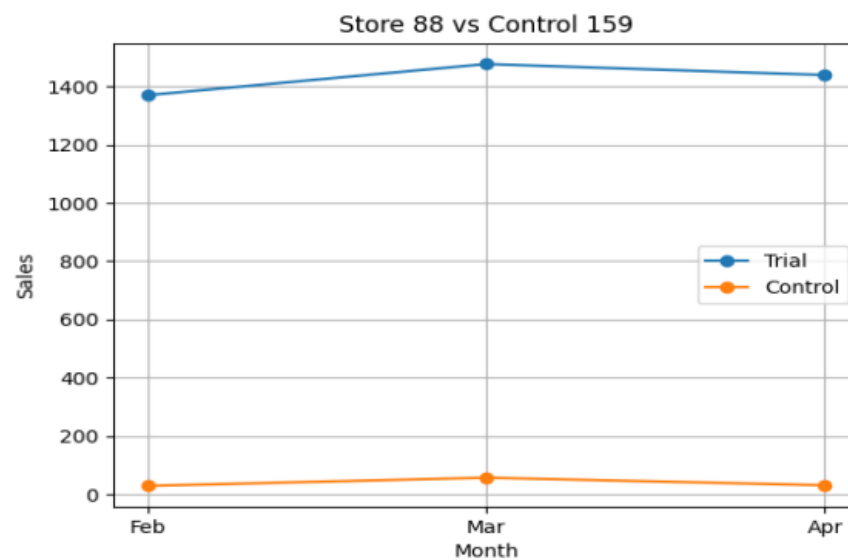

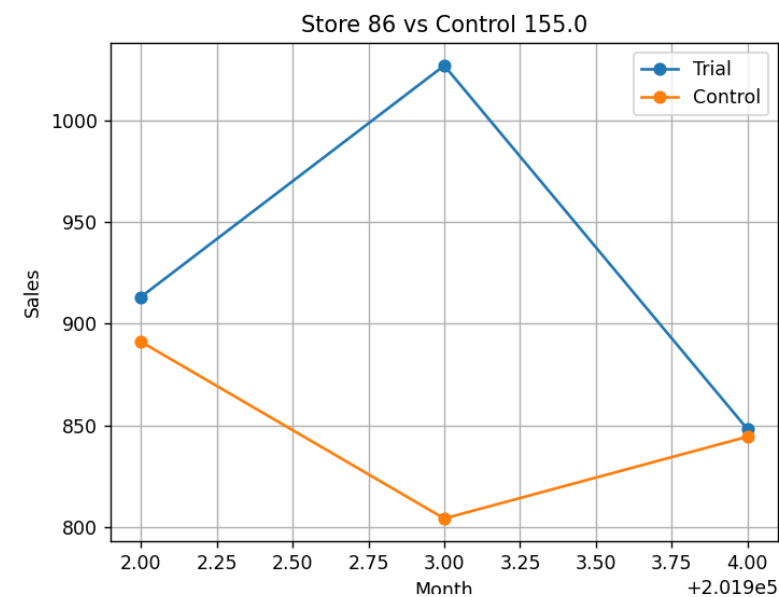

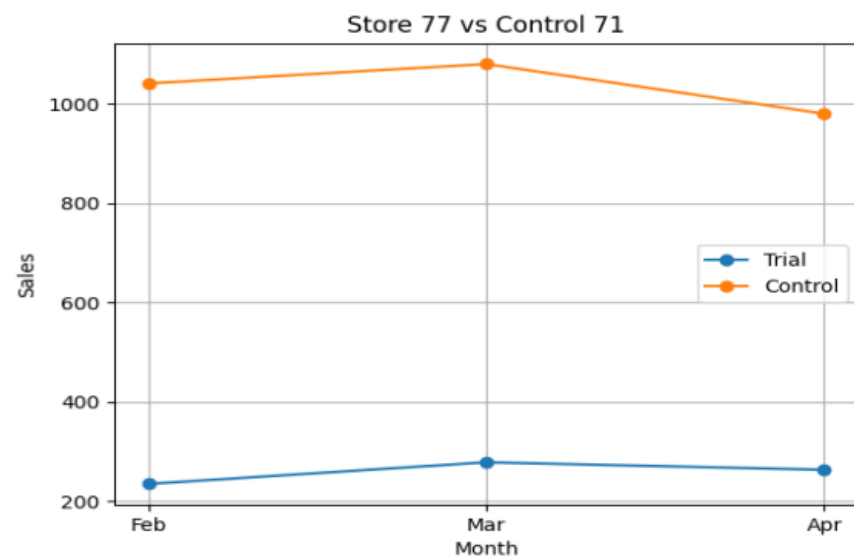

- Sales increased in **March**, but not consistent across all months
- Other months showed **minimal difference vs control**

Store 88 Performance

- Sales significantly **higher than control store**
- Strong and consistent uplift across trial period

Control store had lower baseline sales, so results should be interpreted cautiously

Sales Comparison

Recommendations

- Roll out layout changes to stores similar to **Store 88**
- Avoid rollout in stores similar to **Store 77**
- Conduct further testing for stores similar to **Store 86**

Customer Strategy

- Focus on **Young Singles/Couples** (high-value segment)
- Target **Premium customers** for higher revenue growth
